Dear Parent/Carer

Following the recent reports in the media regarding issues with reinforced autoclaved aerated concrete (RAAC) in school buildings, I write to provide an update.

The DfE has been helping education settings and responsible bodies (such as local authorities and multi-academy trusts) to identify and manage the potential risks of RAAC since 2018. As such, I can confirm that surveyors from a specialist firm appointed by the East Riding of Yorkshire Council previously inspected our school site and there were no identified problems with RAAC.

Yours faithfully

Mr D C Thornton
Interim Headteacher
